EDUCATION

Vivekananda Institute Of Technology

Bachelor Of Technology, Major CSE

Jaipur, Rajasthan

Oct. 2022– June 2026

Senior Secondary

Science-Mathematics (97.40 %)

Indragarh , Bundi, Rajasthan

June , 2021

WORK EXPERIENCE

Software Engineer Intern

March. 2026 – May 2026

IQuint Technology Services

Noida

- Delivered 4 production HMS modules (OPD workflows, billing, appointments, reports) within a 3-month.
- Reduced API response time by 35% across OPD and billing modules by eliminating N+1 bottlenecks across 12+ endpoints.
- Built API-driven DRF dashboards with live DB queries,eliminating 100% of manual reporting overhead across 5 modules.
- Reduced API latency by 40% by offloading async WhatsApp/Email notifications to Celery + Redis, decoupling delivery from the main request cycle.

Next.js Developer Intern

Sept. 2025 – Oct. 2025

computatia.in

VGU, Jaipur

- Re-architected 4 key sections (Hero, Committees, Speakers, Nav) for mobile, improving layout consistency across 5+ screen sizes.
- Engineered responsive, mobile-first interfaces using Tailwind CSS , ensuring cross-browser consistency .
- Implemented adaptive layouts for unconventional screen sizes (e.g., Google Nest Hub 1024×600) .

PROJECTS

E-commerce Backend (Django/DRF) : [Github](#)

Nov. 2025 - Present

- Engineered **Backend** for e-commerce **REST API** (Django + DRF) with **JWT** auth, custom user model, and end-to-end coverage of products, carts, orders, and reviews.
- Designed a normalized **MySQL** schema with FK constraints, unique validations, and Django signals to auto-create customer profiles on registration
- Built catalog search, filtering, sorting, and pagination using django-filter.
- **Tech Stack:** Django 6, DRF, Djoser + SimpleJWT, django-filter, MySQL

FinDash - Full-Stack Personal Finance Dashboard : [Github](#)

July 2024 - Present

- Built a secure Web-app for user data, transactions, and savings goals, featuring bcrypt password hashing and JWT-based session management.
- Used SQL transactions to atomically update Transactions and Accounts tables, ensuring data integrity on critical operations.
- Developed a responsive multi-page frontend with live data charts, modals, and persistent user preferences.
- **Tech Stack:** Node.js, Express.js, JWT, bcrypt, MySQL,JavaScript, HTML, Tailwind CSS

CERTIFICATES & OPEN SOURCE CONTRIBUTION

Hacktoberfest

Oct. 2025

JavaScript Essential Training

July 2025

Explore a Career in Front-End Web Development

July 2025

Explore Web Development With Node.js

Aug. 2025

TECHNICAL SKILLS

Frontend : JavaScript (ES6+),Typescript, React, Tailwind CSS, HTML, CSS

Backend : Node.js, Express.js, Django, REST APIs

Databases: MySQL, PostgreSQL

Developer Tools: Git,GitHub,Postman,DataGrip

AI Tools: GitHub Copilot, Claude CLI, Google stitch
